

Clean stay

Reception

We will do our best to reduce contact in the reception. We offer sanitiser stations, sanitized key-cards, paperless checkout as well as touchless payments. We will emphasize to our staff to wear protective gear, such as masks and gloves.

Open shared spaces

All shared spaces are cleaned each day but depending on use we will clean some several times a day. A special emphasis is set on high-touch items and areas such as front desk, public bathrooms, and elevators as well as tables and lounges and waiting rooms.

Guest rooms

After each departure we thoroughly clean each room as always but with added focus on deep cleaning high-touch items.

Breakfast

Dispensers are available for guests to use before and after using the breakfast buffet. We also have gloves for them to use. We will put out smaller portions on the buffet and fill it up more regularly as well as replacing utensils regularly. We will also offer alternative options for those guests who do not wish to have breakfast in the breakfast room.
